AGRICULTURAL SOLUTIONS
FOR BETTER FARMING

CERTIFIED ISO 9001 : 2015 COMPANY

PRODUCT BROCHURE

ATUL GOVINDRAO DEOGHARE
DIRECTOR

NIKHIL HIRALALJI KORDE
DIRECTOR

A JOURNEY OF HARD WORK, DETERMINATION AND DEDICATION

Atul Deoghare comes from a farming family and has a deep understanding of agriculture through his roots. His practical experience as a farmer and his inquisitive nature have always inspired him to learn and explore new possibilities. He established a small agricultural centre and began his entrepreneurial journey. During this period, he interacted with many farmers, understood their problems, explored solutions, and studied the latest agricultural technologies and products to find better ways to address their needs.

THE FOUNDATION OF SARDAR AGRICHEM

With a vision to bring modern technology to farmers, he recognized the need to provide farmers with technical knowledge and high-quality products that deliver reliable results. In 2019, he established Sardar Agrichem in Amravati, beginning a new chapter in his agricultural business journey. Through modern manufacturing processes, quality control, and continuous research, the company has developed a range of agricultural products designed to meet farmers' needs. The company manufactures quality products and distributes them through an extensive network of agricultural dealers and business partners. It has established its own research and testing laboratory to ensure product quality and reliability. With more than 500 dealers, the company continues to strengthen its market presence and expand its reach.

Company's Objectives

- To manufacture innovative products that address farmers' agricultural challenges.
- To provide quality training and guidance to farming communities.
- To deliver the latest agricultural knowledge and technology to farmers.
- To promote sustainable farming practices.
- To organize agricultural workshops and awareness programs for farmers.
- To create employment opportunities in the agricultural sector.
- To provide solutions to the challenges faced by farmers.
- To promote awareness about the benefits of eco-friendly products.

A New Vision for the Future

A New Vision for the Future
In a vast agricultural country like India, the importance of farming is extraordinary. Every farmer's dream is to achieve prosperity through modern agricultural practices, high-quality products, and the adoption of advanced technologies. With this vision, Sardar Agrichem is committed to working towards the progress and prosperity of farmers.
Our mission is to work together with farmers, understand their needs, and help them achieve better agricultural outcomes.
Come, let us join hands to build a prosperous future for agriculture and take farming to new heights!
